

SIMS ROLLOVER DINER

The Sims is a handmade rollover convertible diner manufactured to the highest standards with square tapered legs. The decorative veneered dining top revolves within the surround to reveal the playing surface and is ideal for individuals who need to convert the table on a regular basis.

The table has a precision ground Italian slate bed to guarantee a flat playing surface. Genuine English moulded leather covers the pocket plates and the cotton bag net pockets are not visible when in the dining position. The table is polished to a high quality durable finish in a choice of colours and also has a range of cloth colours to choose from.
